INTRODUCING ARTISTS' ACRYLIC

Winsor & Newton launched this exciting new range last year. We have sold some sets and the feedback from them has been so positive that we now stock a range of individual colours.

The Artists' Acrylic realises many desires of acrylic artists that other ranges have not accomplished, whilst still maintaining the buttery, smooth consistency you expect from a high quality acrylic colour.

This range boasts important advantages over all other

A breakthrough in colour technology...
unrivalled colour brilliance, that stays brilliant.

Zero colour shift from wet to dry ...
the colour that you see when you're painting is the colour it remains when dry.

Longer working time ...
the Artists' Acrylics remain workable for longer than other ranges.

Highest pigment strength ...
each colour uses the maximum amount of pigment possible, providing a stronger colour than any other range on the market.
